1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 19, 2004 has been entered.

2. Claims 1-29 are allowed.

3. The following is an examiner's statement of reasons for allowance: claims 1-29 are allowed because:

(A) The functional limitations in the claims are accorded patentable weight. See *Richardson v. Suzuki Motor Co.*, 868 F.2d 1226, 1236, 9 USPQ2d 1913, 1920-21 (Fed. Cir. 1989); MPEP §§ 2173.05(g) and 2143.03;

(B) The closest prior art, Shimizu (US Patent No. 4,825,972) does not teach or suggest the hub in a *rotationally* fixed position relative to the hand wheel 121 as Applicant pointed out in the remark of the above Amendment. None of the cited references teach or suggest the functional limitations set forth in Applicant's claims; and

(C) Each of new cited references in Applicant's Information Disclosure Statement (IDS) filed on July 19, 2004 was cited as Y reference, which is particularly relevant if combined with another document of the same category, in applicant's corresponding Application EP 03 07 5462. See Applicant's IDS filed on December 12, 2003. There is no suggestion to combine each of these new cited references with another reference of the same category in order to form the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 4, 5, 7, 11-14, 17, 21, 22, 25-27, and 29, directed to the non-elected species are no longer withdrawn from consideration since all of the claims to the nonelected species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
